			Page-1, NIT, Eligibility Criteria.	<p>1-Considering the ORSAC Empanelment for the year 2020-21, which is yet to be finalized, and may not be enlisted before the final date of bid submission, it is requested to waive off the condition of ORSAC Empaneled Agency / Firm, as there are many firms in Odisha/India having good project credentials like ISO Certified, registered and established office in Bhubaneswar, similar project execution experience, which may be considered for eligibility criteria. The requirement of ORSAC empanelment and the delay in ORSAC empanelment may result in further delay and restrict competition.</p> <p>2- many organizations applied for empanelment but they may not receive official empaneled letter from ORSAC in due course of time of submission – so you may allow to produce the undertaking for submission of the same once received the letter from ORSAC</p>	As per DTCN undertaking will not hold good
			Page-4, RFP - 6 Eligibility Criteria The RFP stipulates "Registered Firms/ Agencies empaneled with ORSAC are only eligible to participate."	For reasons as above, request you to consider waiving off the "ORSAC Empaneled Agency" criteria from the eligibility criteria, so as many firms could apply for the same resulting in healthy competition.	As per DTCN undertaking will not hold good
			Page-40, RFP 5.2 (a) 1, Study & analysis of existing asset database	We understand that for analyzing the existing Map, Database, and available information with WATCO, shall be provided to the selected vendor before carrying out the work and team mobilization thereof. Kindly clarify,	WATCO may provide the existing inputs to the vendor whatever is available, balance to be surveyed by the vendor itself.

Sl. NO	Name of organization/firm	Organization Address	Tender clause # & reference	Query Description	Clarification
			Page-45-RFP 6.2 Revival of the system – Development of Database and Map generation	For precision and detailed mapping of assets, High Resolution Spatial Image will be required. Please clarify whether the Client will provide the Geo Spatial Image from NRSC or it is in the scope of the Bidder.	As of now the vendor will use existing HRSI what is available with WATCO.
5	Spetial Planning & analysis Research Centre Pvt. Ltd.	E-11, Infocity, Bhubaneswar- 751024, Odisha. Email:-info@sparcindia.com	Page-45,RFP 6.2 Revival of the system , Besides, in the process of maintenance of the systems, a lot of replacement works have also been done, adding many point and line assets to both the water supply and sewerage systems. Accordingly, the database now needs to be undated.	We may request you to kindly provide an approximate number of points & line assets replaced in water supply and sewerage systems to help us prepare the cost & effort estimate required to undertake the work	Relevant informations are given in the DTCN
			Page-45,RFP 6.2 Revival of the system , Between 2015 to 2020, about 700 Km more of water supply mains and 400 Km more of sewers along with ancillary appurtenances are reported to have been laid/ installed in the city under different programs, especially under Atal Mission for Rejuvenation and Urban Transformation (AMRUT)	We may request you to kindly clarify the length of water supply mains & sewers along with ancillary appurtenances reportedly laid/ installed between 2015 to 2020, since the value in Pg.45 & 46 differs.	Relevant informations are given in the DTCN

SI NO	Name of organization/firm	Organization Address	Tender clause # & reference	Query Description	Clarification
			Page-46, RFP 6.4 General Information, Point No.6,	The estimated cost for the Project is based on updation of around 700 Km of water supply pipelines and 200 Km of sewers with appurtenant point assets. Any additional work beyond this limit shall have additional proportional cost implications.	As per DTCN
